

# Career Guidance Overview

## OUR MODEL

Our model for career guidance consists of three basic elements:

1. **Assess:** Helping learners *know themselves* better. Assessing and exploring career options.
2. **Explore:** Guiding learners towards finding the *right career path* and next steps for their studies or for work.
3. **Pursue:** Encouraging learners to make wise decisions on their journey and giving them the *necessary skills to pursue their dreams*.

Our focus is on assisting learners in making wise decisions for their future, guiding them each step of the way.
